March Newsletter

Check out the latest 'little house' from Shane Dean Construction, Inc. Shane and Jana donated this darling playhouse to the Riverside Recovery Christmas for the Children event. The lucky winner chose to donate it to Camp Kiwanilong for many children to enjoy. Our next donated little house will go to the Columbia Memorial Hospital in Astoria for their fundraiser.

Other big news: Shane is opening up a new division of his company. **Ryan Steinfeld Stonework** custom stone work will now be available through our office. See examples below of his 'functional beauty' that is natural and lasting. For many more examples, see our [Residential webpage dropdown menu](#). A printable brochure will be available soon on our "About Us" webpage, along with our other brochures. We can now add beauty and function to walls, patios, planters, steps, and anything else you can dream up. Call us today for information.

Next, we are adding Arbors and Gazebo type structures to our offerings. For your special occasion, such as an upcoming wedding, or for your garden or yard, contact us about custom-designed outdoor structures that can accent your yard for years to come.

Thanks for your interest in Shane Dean Construction, Inc. And remember, ASK SHANE for all your building needs.
